## Acknowledgments

Editing the *Journal of Geography* was a professional honor for me. The job, which I learned by doing it, taught me a great deal about geography and even more about writing. When I assumed the office in January 1983, I secretly expected to make a number of changes to the journal, but I soon found out that an editor's main responsibility is to get enough decent manuscripts to fill each issue and to get the issues out on time. I am, therefore, extremely grateful to all the people who have helped me to discharge my duty in the last five years. I wish to thank my editorial staff and referees who evaluated manuscripts for possible publication. I owe Corrine McDermid, who served as Editorial Assistant for four years, a special word of gratitude. I could always count on Corrine because, in addition to her exemplary office skills, she writes well and knows what good writing is. I also wish to thank Chancellor Larry Schnack and Dean Lee Grugel of the University of Wisconsin-Eau Claire, and my colleagues in the Department of Geography for supporting my term as editor. Without their support it would have been impossible for me to have edited the *Journal of Geography*.
